

## § 603.700

for and manage supplies. A fixed-support TIA should not include requirements to account for or manage supplies.

### PURCHASING

#### § 603.700 Standards for purchasing systems of for-profit firms.

(a) If the TIA is an expenditure-based award, it should require for-profit participants that currently perform under DOE assistance instruments subject to the purchasing standards in 10 CFR 600.331 to use the same requirements for the TIA, unless there are programmatic or business reasons to do otherwise (in which case the reasons must be documented in the award file).

(b) Other for-profit participants under an expenditure-based TIA should be allowed to use their existing purchasing systems, as long as they flow down the applicable requirements in Federal statutes, Executive Orders or Government-wide regulations (see Appendices A and B to this part for a list of those requirements).

#### § 603.705 Standards for purchasing systems of nonprofit organizations.

So as not to force system changes for any nonprofit participant, an expenditure-based TIA should provide that each nonprofit participant's purchasing system comply with:

(a) 10 CFR 600.236, if the participant is a State or local governmental organization.

(b) 10 CFR 600.140 through 10 CFR 600.149, if the participant is a nonprofit organization other than a GOCO or FFRDC that is excepted from the definition of "recipient" in 10 CFR 600.101. If a GOCO or FFRDC is a participant, the TIA must specify appropriate standards that conform as much as practicable with requirements in its procurement contract.

### Subpart G—Award Terms Related to Other Administrative Matters

#### § 603.800 Scope.

This subpart addresses administrative matters that do not impose organization-wide requirements on a participant's financial management, property management, or purchasing sys-

## 10 CFR Ch. II (1–1–11 Edition)

tem. Because an organization does not have to redesign its systems to accommodate award-to-award variations in these requirements, TIAs may differ in the requirements that they specify for a given participant, based on the circumstances of the particular RD&D project. To eliminate needless administrative complexity, the contracting officer should handle some requirements, such as the payment method, in a uniform way for the agreement as a whole.

### PAYMENTS

#### § 603.805 Payment methods.

*A TIA may provide for:*

(a) *Reimbursement*, as described in 10 CFR 600.312(a)(1), if it is an expenditure-based award.

(b) *Advance payments*, as described in 10 CFR 600.312(a)(2), subject to the conditions in 10 CFR 600.312(b)(2)(i) through (iii).

(c) *Payments based on payable milestones*. These are payments made according to a schedule that is based on predetermined measures of technical progress or other payable milestones. This approach relies upon the fact that, as the RD&D progresses throughout the term of the agreement, observable activity will be taking place. The recipient is paid upon the accomplishment of a predetermined measure of progress. A fixed-support TIA must use this payment method (this does not preclude use of an initial advance payment, if there is no alternative to meeting immediate cash needs). Payments based on payable milestones is the preferred method of payment for an expenditure-based TIA if well-defined outcomes can be identified.

#### § 603.810 Method and frequency of payment requests.

The procedure and frequency for payment requests depend upon the payment method, as follows:

(a) For either reimbursements or advance payments, the TIA must allow recipients to submit requests for payment at least monthly. The contracting officer may authorize the recipients to use the forms or formats described in 10 CFR 600.312(d).
